To whom it may concern

I have been in the Spa Industry for 19 years, and am very familiar with the application of foam insulation as we use it to insulate our Spa Pools.

Therefore, when I was looking for a reputable company to provide foam insulation for my new home, I asked our Foam Supplier for a referral. I was referred to Advanced Foam and Coatings, and after speaking to Alan Werry the owner and looking at his application, I felt very comfortable in his ability to complete the work I needed and therefore engaged his services.

Alan's work on my home was completed to a very high standard. The foam insulation was installed into the Walls, Roof and Floor, and has created a sound barrier between levels of the multi-level house, which was exactly the outcome we were after.

Alan conducted himself very professionally on-site and it was a pleasure to see how much pride he took in his workmanship.

I would happily recommend Alan and his Product to anyone looking to achieve a similar result.

Yours sincerely,

**Graham Ritchie**  
Managing Director
